Cities in Israel

SEAK technology gives us a competitive edge in smart lighting projects in Israel.

Malkiel Hagbi, CEO Eneltec

The pilot was inaugurated by president of Slovakia

The first city, that has used smart lighting control was Atlit, small town next to Haifa, with 1100 luminaires. A year later, a pilot in Tel Aviv was inaugurated by H.E. Andrej Kiska, president of Slovakia, on his official visit to Israel in March 2017. In 2021 the Seak lighting control was implemented in 225+ municipalities.

StreetLite - app for lighting control

H.E Andrej Kiska inaugurated pilot in Tel Aviv
